Self-Directed Inquiry Learning How To Learn

e-Learning Becomes a New Normal

More educators than before are turning to technologies to facilitate remote learning. As industry leader in education technology, **EVI** provides the best learning solutions to facilitate learning without any hassle. Schools, parents and children can all benefit from our online platform.

Effective Online Learning and Teaching

Teachers can deliver live streaming lessons, publish videos, and give online assignments to keep learning beyond the classroom. Children love technology and digital learning can help motivate them to study more.
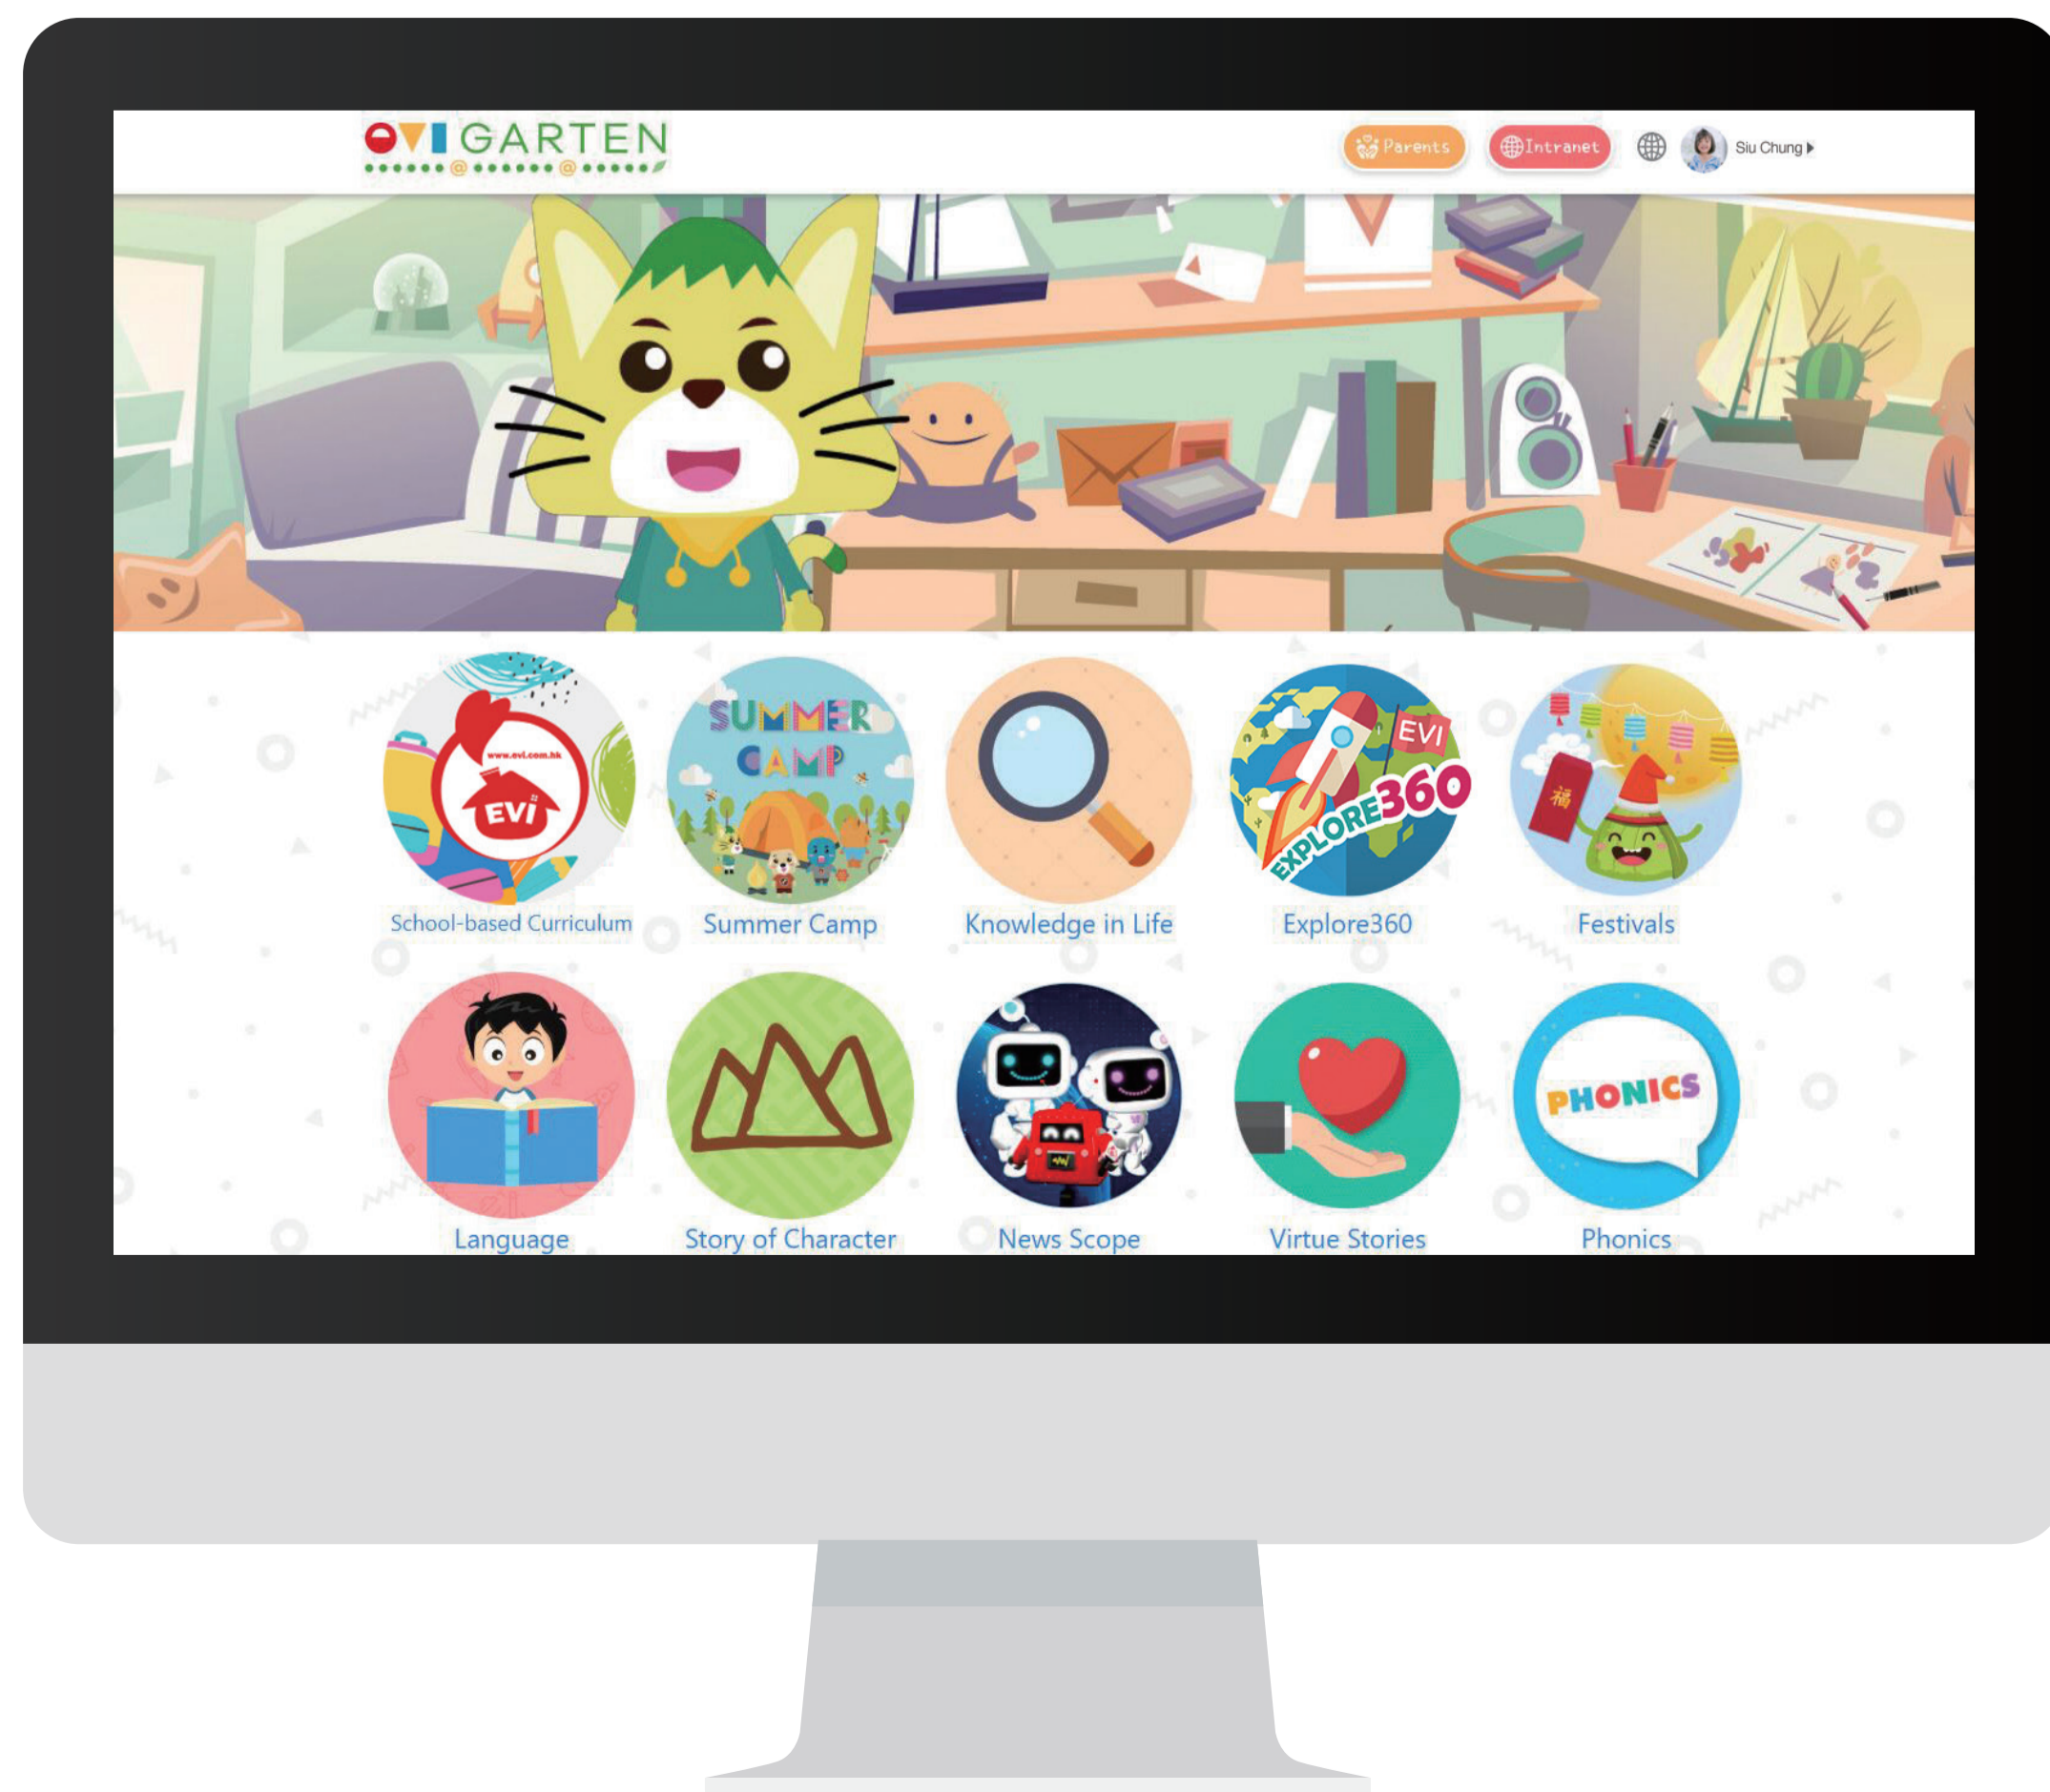

EVIGarten Equips Children to Face Future Challenges

EVIGarten opens up a new experience of online learning for parents and children alike. Our content is easy to navigate and can be viewed on mobile, tablet or desktop. Parents can browse useful parenting tips and advice in "Parents" section while children can choose a variety of courses in "Kids" section. **EVIGarten** aims to nurture children as self-motivated learners, active explorers, and happy individuals.
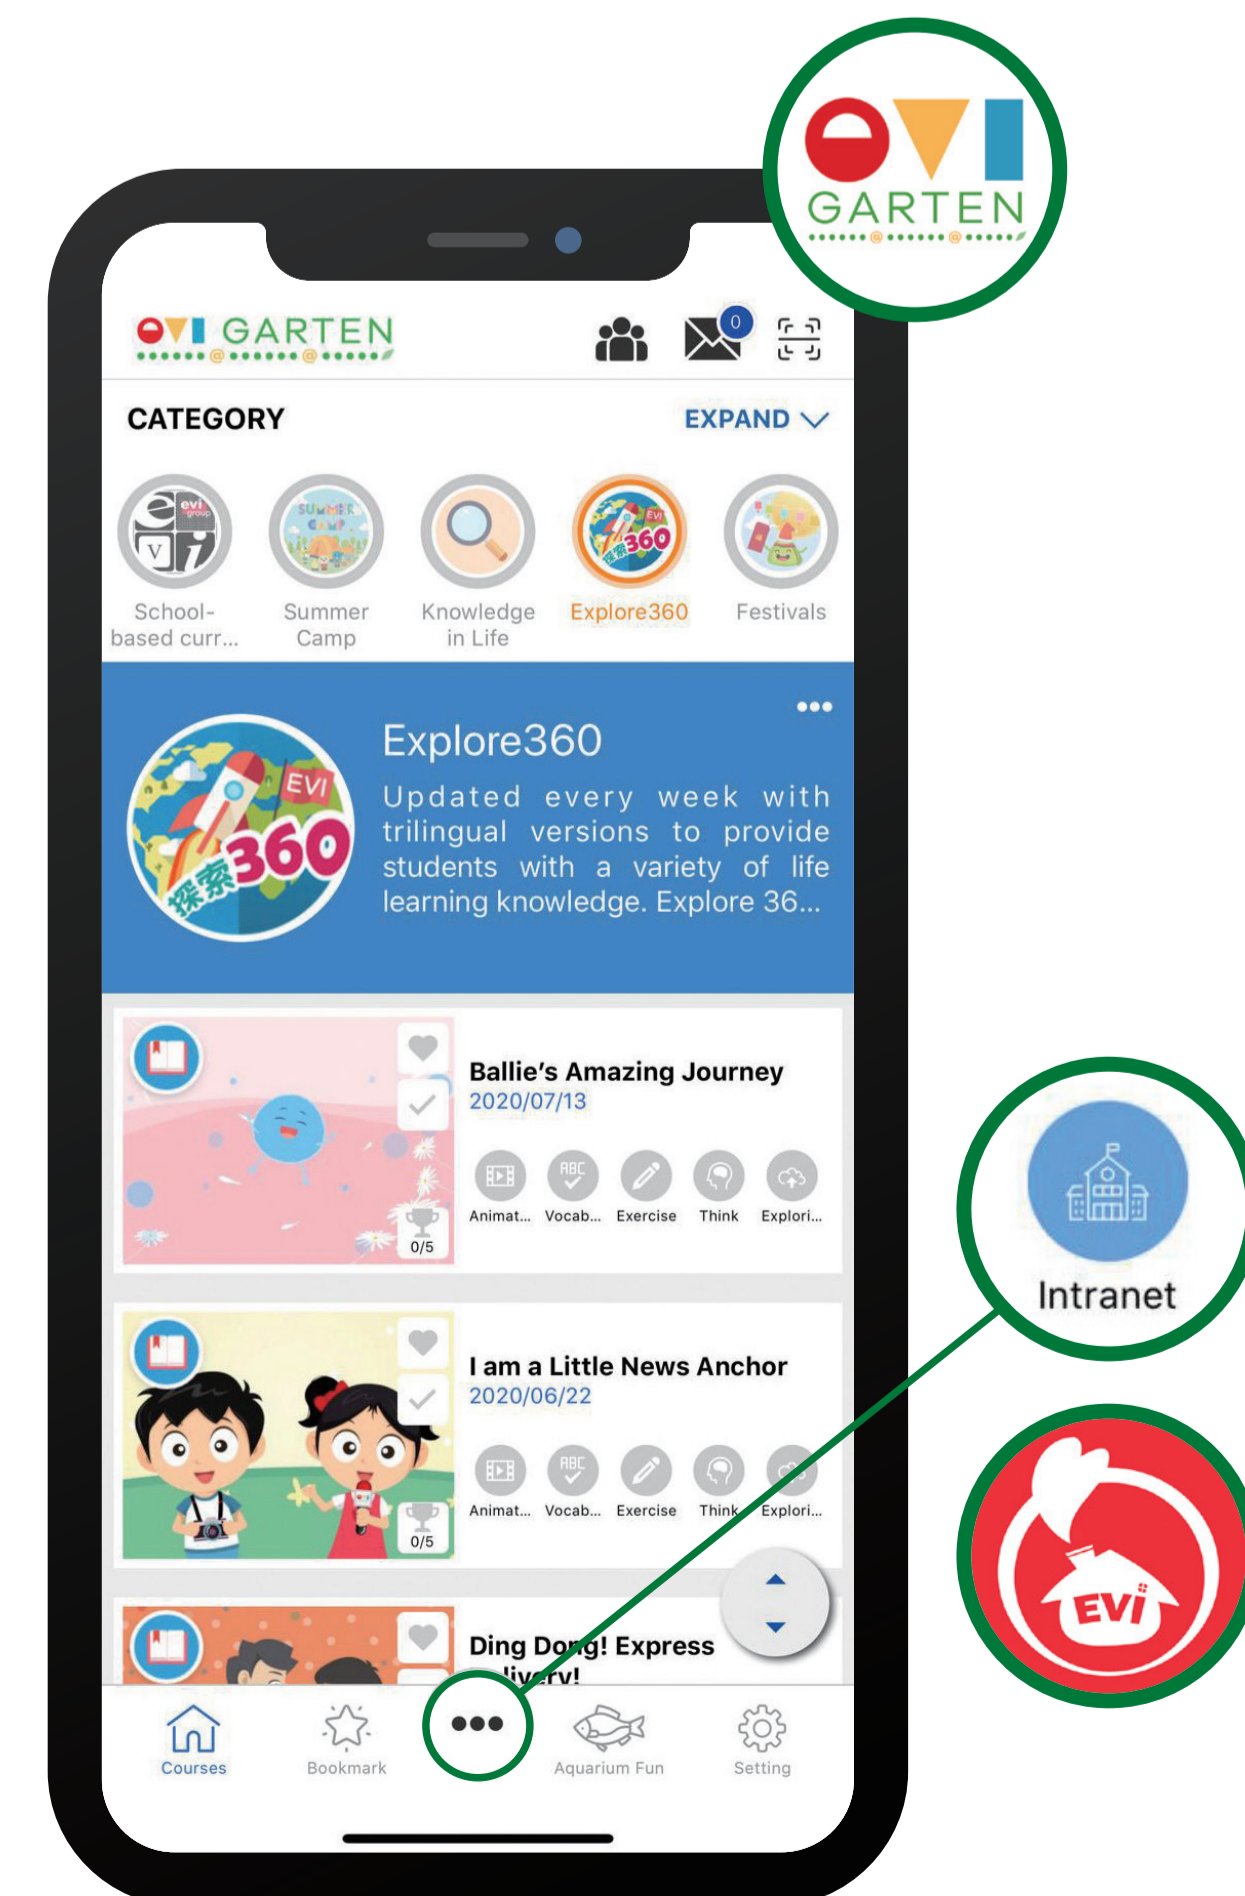

EVIGarten equips your children with···

- **Self-directed learning ability**
- **A learn-to-learn attitude**
- **Inquiry skills**
- **Creative thinking techniques**

Platform Usage During the Class Suspension (2020.2-7)

✓ **Total number of visitors reached a click-through rate of 22,000,000**

✓ **The cumulative number of visitors was up to 432,000**

✓ **Let students get adapted to online learning**

✓ **Platform usage greatly increased by 5 times**

EVIGarten learning platform

EVIGarten App supports learning by exploration. It also links with **EVI** Family App, a family-school communication app for viewing school notices, photos, calendar and so on.

EVIGarten encourages each school to design their own unique school-based curriculum and enrich it with **EVI** resources. Materials are chosen by teachers to reflect children's interests and to meet specific developmental goals.

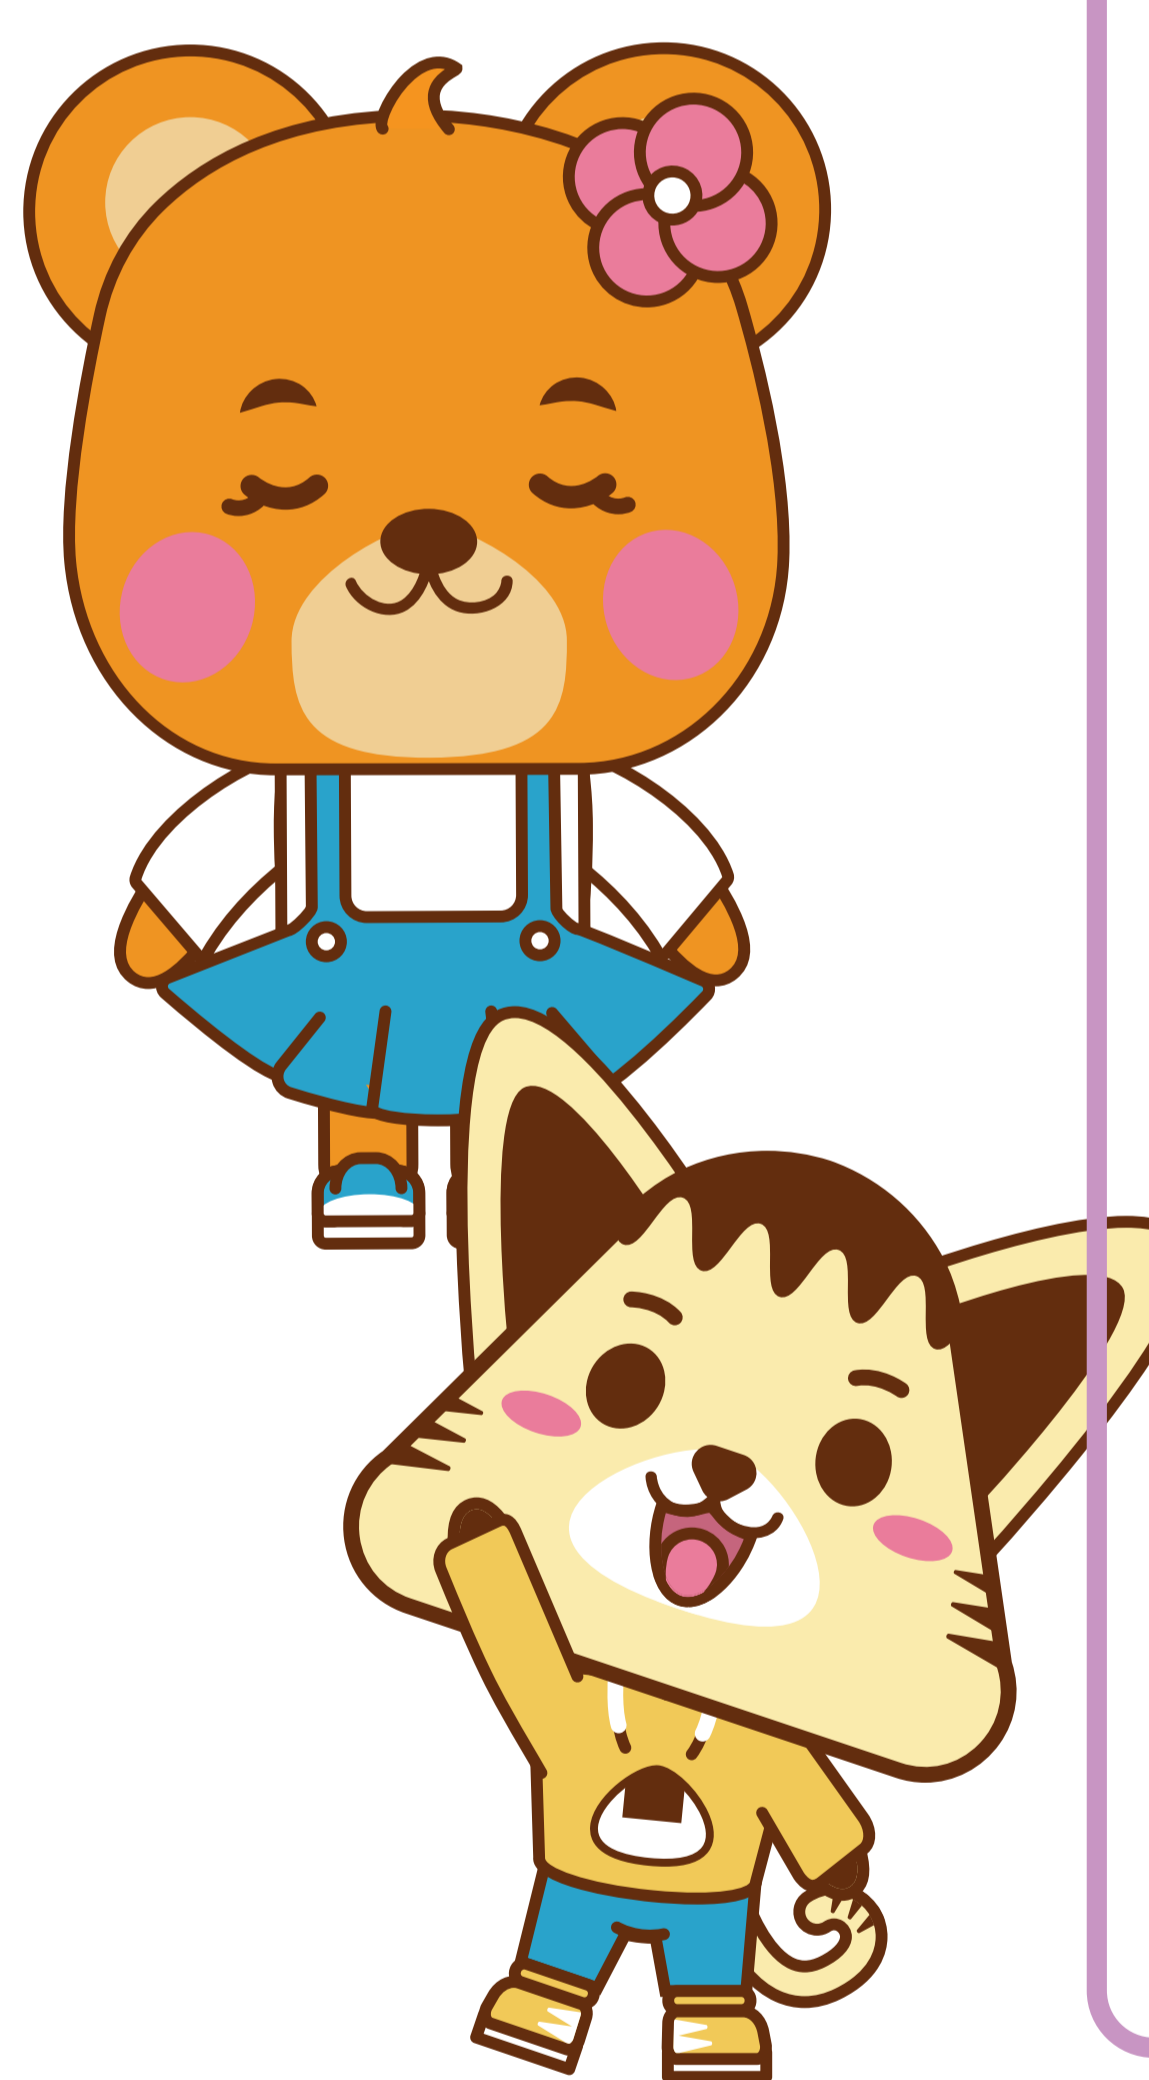

School-based materials can be accessed anytime anywhere to keep the learning going.

Parents and children can submit homework through "Exploring Project". Teachers can mark and give comments online, as well as share children's work on the display area.

Diversity Learning on EVIGarten

EVIGarten offers a wide range of courses covering various topics. Children can learn in their own time in their own way through watching our animated stories. Most courses come in English, Cantonese and Putonghua, preparing children to be biliterate and trilingual.

Daily Lives, News and Theme-based Courses

Featured Course Explore 360
- Updated every week
- With English, Cantonese and Putonghua versions
- Reading Award Scheme to promote reading for pleasure
