15 minutes every day,
get a healthy life!

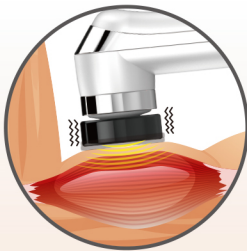

MT Alpha

Physiotherapy Device

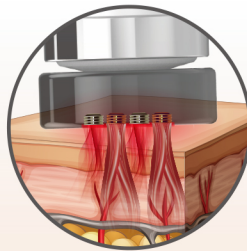

MT Alpha is an innovative rehabilitation device jointly researched and developed by MTcure and the Faculty of Medicine, the Chinese University of Hong Kong.

The stimulation signals and energy are designed according to rehabilitation standards with FDA's approval.

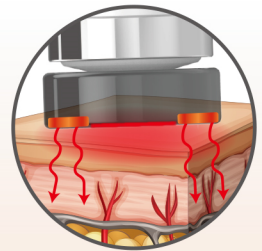

The core technology is based on Bio-Medical Combination of Treatment Technology. It can provide 3 treatment stimulation signals.

Deep tissue stimulation
(Using specific percussion frequency to stimulate musculoskeletal muscle. Promote metabolism)

Photobiomodulation
(Research and development's low level laser therapy system is composed of two medical wavelength signals. Promote tissue repair and alleviate inflammation)

FDA-reg heat therapy
(Promote rehabilitation)

Musculoskeletal conditions and related degenerative symptoms can be improved significantly from the clinical human test conducted by MTcure which is an innovative biotechnology company incubated by the Chinese University of Hong Kong

Treatment effect

It can help to relieve pain, promote blood and lymphatic circulation, and eliminate inflammation.

Features and advantages

Medical stimulations are designed according to medical standards, FDA medical devices certifications.

Effectively relieve the following symptoms

Sports injury

*It is recommended to use this product after 24-48 hours

Muscle strain

Arthritis/
Degenerative Diseases

Clinical human test results

Musculoskeletal conditions and related degenerative symptoms can be improved significantly from the clinical human test conducted by MTcure which is an innovative biotechnology company incubated by the Chinese University of Hong Kong. It can effectively relieve the pain, accelerate tissue regeneration, increase blood circulation and alleviate inflammation, etc.

- A total of **74** patients were tested, the age range was **55-80** years old
- Twice a week, **15** minutes each time
- According to the International Painful Rating Scale, **VAS Index (Visual Analogue Scale)**
- Before testing, **VAS Index** average score is **6.3**. 1 month later, the score dropped to **3.5** ↓

The awards of MTcure

The 5th Hong Kong University Student Innovation and Entrepreneurship Competition Champion

Jockey Club Age-friendly City Project (\"JCAFC Project\") certificate

The 46th International Exhibition of Inventions Geneva Golden Medal

The 8th WACBE World Congress on Bioengineering Best awards for Young Investigator

The 5th China College Students \"Internet+\" Innovation and Entrepreneurship Competition Golden medal (The best result among Hong Kong, Macao, and Taiwan regions)

Smart Aging Silver Award

HONG KONG ICT AWARDS 2020 香港資訊及通訊科技獎

Technical Specifications

Product Name	: MT Alpha Physiotherapy Device	Battery Capacity	: 3.7V/ 2600mAh
Product Model	: MAX-M01MC0552	Charging Time	: 2.8 hours
Treatment stimulation	: Deep tissue stimulation Photobiomodulation	Automatic Shutdown Time	: 10 minutes
	FDA-reg heat therapy	Product Size	: 16x4x6.8cm
Rated Power	: 5.5-6.5W	Net Weight	: 195g
