For enquiries or demo, please message us at WhatsApp: 63311833

SMART HEALTH MONITORING +

We **SAVE LIVES** by:

- ❖ Pro-actively reaching out to patients to manage their health threats via **Smart vital sign Monitoring** – using Big Data, AI, IoT

SMART HEALTH MONITORING +

We **SAVE LIVES** by :

❖ Establishing **Remote Virtual Clinics** & enabling Collaborative Care

1
PATIENTS take measurements from a **'Virtual Clinic'** at their residential complex or care home

2
Medical data is transmitted instantly

- ✓ Medical diagnostics
- ✓ Treatment advice
- ✓ Drug advice

3
Doctors analyzing Patient issues from remote

Glucometer

Vital Sign Scanner
- SpO2, ECG, Blood Pressure, Pulse rate, Respiration rate, Body Temperature

Otoscope

Stethoscope

Dermatoscope

4
Doctor advising on medication treatment and care procedures

SMART HEALTH MONITORING +

For Reference : Our Patent in Mainland China and Hong Kong –
