

公司簡介

聯誼工程 (國際控股) 有限公司總部位於香港科學園，我們專業的團隊旨在解決從化石燃料到可再生能源過渡的影響，與此同時我們主力研發廚餘再生，把廚餘轉化成可再生能源，轉廢為能。我們擁有一系列專利技術，包括廚餘處理、厭氧消化系統和除臭技術，為客戶提供一站式廚餘再生解決方案。我們一直與生產力促進局合作研發，近年更榮幸獲得多項創科獎項和成就，包括 2021 年城市創科大挑戰冠軍 (環境的可持續發展) 和最喜愛獎，日內瓦國際發明展銀獎2022，英國機械工程師學會機械創新獎2021-2022等等，並由深港兩地的專家評估後被獲選編入《深港2022年度生態環境優秀創新技術、成果、專案彙編》。

Company Introduction

AEL (International Holdings) Limited is headquartered in Hong Kong Science and Technology Park and is a spin-off from Associated Engineers Limited. Our team aims to create an impact by driving the urgent global need to transition from fossil fuels to renewable energy, and our R&D team proudly offers a turn-key solution for food waste treatment into renewable energy and valuable resources. Our Food Waste Total Recycling Solution boasts an array of patented novel technologies, ranging from the pre-treatment of food waste, to the anaerobic digestion system, to our odor removal technology. We are currently partnered with Hong Kong Productivity Council to research and develop this solution, which has led us to great achievements, including championing the Open Group (Environmental Sustainability) and Most Favoured Award in the City I&T Grand Challenge in 2021, International Exhibition of Inventions Geneva-Silver Medal 2022 & IMechE Mechanical Innovation Award 2022 etc, and we are honoured to be selected the Collection of Shenzhen and Hong Kong Outstanding Innovation Eco Environmental Technologies and Achievements 2022.
