

氫燃料電池車試驗

Trial of Hydrogen Fuel Cell (HFC) Vehicles

行政長官在 2022 年《施政報告》中提出在 2023 年有序地開展氫燃料電池雙層巴士及重型車輛的試驗，並在 2025 年制訂陸上運輸使用氫能的長遠策略。為推展此試驗及配合氫燃料發展趨勢，特區政府成立了氫能源跨部門工作小組，統籌各政策局和部門準備本地採用氫燃料的工作。

The Chief Executive's 2022 Policy Address announced that trials of HFC double-deckers and heavy vehicles will commence progressively in 2023, and long-term strategies for the application of hydrogen energy in road transport will be formulated by 2025. To take forward the trials and keep pace with the development trend of hydrogen fuel adoption, the Government has set up the Inter-departmental Working Group on Using Hydrogen as Fuel, to coordinate preparation works of bureaux/departments for using hydrogen as fuel locally.
